PROFILE

Web Multimedia Development undergraduate at IPCA (Portugal) with formal technical certification in Computer Hardware & Systems Management. Passionate gamer and rigorous tester seeking a 4–5 month international university curricular internship (February – June 2027) with game development studios or software engineering teams. Skilled in bug reproduction, test execution, hardware diagnostics, and issue tracking.

EDUCATION

BSc in Web Multimedia Development
IPCA (Polytechnic Institute of Cávado & Ave)
2024 – Present (Graduating 2027) • Portugal

Focus: Software Development, Interactive Multimedia Pipelines, Systems Testing, Relational Databases, Web Technologies.

Professional IT Management (Level 4)
Escola Secundária de Vila Verde
Sep 2021 – Jul 2024 • Portugal

Hardware assembly, GPU/CPU stress diagnostics, OS fault isolation (Windows/Linux), LAN networking, peripheral profiling.

QA & TECHNICAL SKILLS

Testing & Methodologies

Functional Testing | Regression Testing | Bug Reproduction | Test Plan Execution | Jira / Bug Tracking | Edge-Case Analysis

Hardware & Environments

Hardware Assembly | Performance Profiling | Windows & Linux | GPU / Driver Testing | Network Diagnostics | Crash Log Reading

Software & Scripting

JavaScript / TypeScript | SQL Databases | Git Version Control | HTML5 / CSS3

LANGUAGES

English	Fluent / Professional (C1)
Portuguese	Native Speaker

FEATURED QA & SOFTWARE TESTING PROJECTS

CineLog PWA — Cross-Device Functional & API Testing
PWA Testing • TMDB API Validation • Mobile Viewports • **cinelog-phi.vercel.app**
Conducted cross-browser and mobile device verification for a movie tracking web application. Tested TMDB REST API response edge-cases, asynchronous media poster caching, network latency resilience, and touch interaction fidelity.

Daymark ("The Everything App") — Cross-Platform & Offline Sync Verification
PWA / Electron / Android APK Testing • Supabase RLS • **daymark-lynnx.vercel.app**
Executed functional and regression verification across 22 integrated modules, testing offline-to-online state reconciliation, row-level security policies, and cross-platform parity across Web, Windows Electron, and Android APK builds.

End-to-End Application Testing Matrix — European Internship Hunter
Black-Box Testing • Edge Case Validation • Process Isolation • SQLite • **github.com/FabioSilva32/poland-internship-hunter**
Designed and executed manual & automated test suites validating SQLite migrations, multi-country filtering (PL & NL), financial calculator formulas, rate-limiting boundaries, and IPC message handling.

StocksVault, Retiro Interior & ACRIALBI — Functional & Responsive Verification
Angular • Boundary Testing • Cross-Browser QA • **stocksvault.netlify.app** • **retirointerior.netlify.app**
Conducted functional verification across stock portfolio allocation formulas, currency conversions, responsive viewport breakpoints, and asynchronous REST state transitions.

TECHNICAL EXPERIENCE & SYSTEMS SUPPORT

Systems & Verification Intern • Hospital Misericórdia de Vila Verde — May 2024 – Jun 2024

- Conducted system verification checks on clinical databases to ensure zero corrupted patient records and strict data reliability.
- Diagnosed hardware failures and application crashes on hospital workstations, logging actionable reproduction steps for senior technicians.
- Verified software installations and network printer connectivity across high-pressure hospital departments.

Data Validation & Systems Intern • Câmara Municipal de Vila Verde — Jun 2023 – Jul 2023

- Performed systematic auditing and data verification across municipal databases, flagging discrepancies and duplicate records.
- Created structured validation routines to ensure data entry compliance across municipal service counters.

Data Integrity & Archival Intern • OnDigital — Jun 2022 – Jul 2022

- Executed QA checks on scanned enterprise files and database logs, maintaining 99%+ accuracy during digital transformation projects.
- Maintained strict adherence to digital storage standards and naming conventions.
