🌟 FLAGSHIP ENGINEERING & PRODUCTION PROJECTS (MAIN FOCUS)

1. CineLog — Movie & Series PWA

✓ #1 FLAGSHIP APP

React • TypeScript • TMDB REST API • Mobile PWA • Vercel CI/CD

Production Progressive Web App engineered for cinema discovery, personal watchlists, and review diaries with touch-first ergonomics and offline capabilities.

- **Component Architecture:** Built with modular React and strict TypeScript, implementing smooth bottom-sheet navigation and dark-canvas tactile design.
- **Async Data & Caching:** Interfaced TMDB REST API with debounced queries, client-side caching, and poster image optimization.
- **Production Pipeline:** Continuous integration and edge CDN rendering deployed on Vercel with zero cold-start delay.

🔗 **Live App:** cinelog-phi.vercel.app ↗

2. Daymark — "The Everything App" OS

✓ WEB / DESKTOP / APK

Next.js 15 • React 19 • TypeScript • Supabase • Electron • Android

All-in-one Personal Operating System & Command Centre uniting 22 modular workspaces into a fast, offline-first PWA, Windows desktop app, and Android APK.

- **22 Integrated Modules:** Kanban Tasks, Eisenhower Matrix, Pomodoro Timer, Habit Heatmaps, Flashcards, Grade Calculator, Finance Tracker & Dev Snippets.
- **Cloud + Local Hybrid Sync:** Supabase PostgreSQL with Row-Level Security (RLS), Google OAuth, and full offline localStorage fallback.
- **Multi-Platform Delivery:** Deployed on Vercel with Electron desktop packaging and Capacitor Android APK builds.

3. European Internship Hunter CRM

DESKTOP APP (PL + NL)

TypeScript • React • SQLite • Electron • Gemini AI • Nodemailer

Windows desktop platform automating Poland & Netherlands internship discovery, candidate fit scoring, university dorm & living cost comparisons, and outreach tracking.

- **Explainable 5-Factor Scoring:** Evaluates candidate skills against Polish & Dutch tech companies, academic dates, and language requirements.
- **IPCA & University Dorm Calculator:** Compares PL (€600/mo) & NL (€650/mo) grants + nearest university dormitories across 15 cities.
- **Local SQLite CRM:** 14-stage Kanban pipeline, auto-tracking on email dispatch, and rate-limited Gmail SMTP sending.

🌐 ADDITIONAL LIVE DEPLOYED WEB APPLICATIONS

Retiro Interior — Tourism Web Portal

HTML5 • CSS3 • JavaScript • Netlify

Responsive platform showcasing interior regional tourism, eco-retreats, and nature experiences with interactive responsive sections, fluid viewports, and retreat galleries.

🔗 retirointerior.netlify.app ↗

StocksVault — Portfolio Tracker

Angular • TypeScript • REST API • Netlify

Financial web application for monitoring equity allocations, comparative stock analytics, interactive watchlists, and reactive metrics dashboards.

🔗 stocksvault.netlify.app ↗

ACRIALBI — Creative Showcase

Web Multimedia • CSS Grid • Netlify

Digital multimedia web portal presenting creative concepts, community initiatives, and ideation galleries with WCAG-compliant accessible contrast.

🔗 acrialbi.netlify.app ↗

💼 INSTITUTIONAL SYSTEMS & DATABASE SUPPORT EXPERIENCE

Hospital Misericórdia de Vila Verde

May – Jun 2024

IT Systems & Database Support Intern

Audited health information system databases with zero error tolerance. Authored standard operating procedural manuals for clinical staff and resolved hardware, networking, and software troubleshooting tickets across hospital departments.

Câmara Municipal de Vila Verde (City Hall)

Jun – Jul 2023

Database & Information Systems Intern

Cross-referenced and audited municipal supplier and citizen datasets in municipal databases, eliminating duplicate entries. Configured administrative workstations and assisted departments with operational software diagnostics.

🎓 **Education:** BSc in Web Multimedia Development — **IPCA** (Instituto Politécnico do Cávado e do Ave, Portugal)

Core Toolkit: TypeScript, JavaScript, React, Angular, SQLite, Node.js, Figma, Adobe CC (Photoshop, Illustrator, Premiere Pro, After Effects)
